

Le Wagon August 2, 2022

Le Wagon Tokyo

Ruby Foundations

Programming for Everybody Webinars

What is Le Wagon?

Le Wagon has been ranked the #1 coding school in the world for 3 years, according to students on [Switchup](#).

We help our students re-invent their career with technology, through immersive bootcamps in Web Development and Data Science.

We teach these in both 9-week (full time) and 24-week (part time) programs.

Le Wagon

Overview

We are providing students with the skillsets necessary to future-proof their career.

**Always work hard
on something
uncomfortably exciting**

- Larry Page

A group of four students are gathered around a table, focused on a laptop screen. A young woman in a grey sweater is pointing at the screen with her right hand. To her left, a man in a dark blue shirt is holding a black mug. In the foreground, a person's hands are visible, writing in a notebook with a blue pen. Another student, a man in a blue shirt, is resting his chin on his hand, looking intently at the screen. They are in a bright room with large green plants in the background.

Course's Mindset

Objective

Our goal is to provide **context** for what you will learn in Codecademy, and to show you what you can do with the knowledge acquired.

Our methodology

- Practice > Theory
- Learn together
- Show, not tell

What we will teach you

- Ruby foundations & syntax 💎
- Core notions of programming 💻💻

What we will not teach you

- Front-end 📱
- Building web applications 📞

⚠️ *This course is not a bootcamp!* ⚠️

What makes a successful student

- Punctual for lectures: **We start at 7pm JST!** 
- Complete **Codecademy** module in advance 
- Not afraid to ask **questions ?**
- **Practice** makes perfect (REPL & Codewars) 

Tools

Zoom: to attend live sessions

Slack: to ask questions and connect

Github: to get the course's material

Codecademy: to learn on your own

REPL: to practice and go further

- Your and

Schedule

Ruby Foundations

- | | |
|---------------|---|
| Tue, Aug 2nd | Kick-off Introduction to Ruby (1 module) |
| Thu, Aug 4th | Ruby Flow: Conditionals Looping with Ruby (2 modules) |
| Tue, Aug 9th | Data Structures: Arrays Blocks & Sorting (2 modules) |
| Thu, Aug 11th | Hashes & Symbols (1 module) |
| Tue, Aug 16th | Refactoring & Blocks, Procs and Lambdas (2 modules) |
| Thu, Aug 18th | Object Oriented Programming: Part I & II (2 modules) |

Daily Schedule

Monday | Wednesday | Friday

19:00 - 20:00 Recap of the concepts for the day's modules

20:00 - 20:15 Going further (mini-programs, livecode, challenge)

20:15 - 20:30 Q&A session

Slack Channel: #codecademy-questions (it's a team effort!)

The Team

Sasha Kaverina

Community & Events Manager

Sasha takes care of our amazing Le Wagon Tokyo community and events! She has been living in Japan for 3 years, speaks Japanese, and is coming straight from Kyoto where she was working for a Japan-based venture capital.

Douglas Berkley

Tokyo Bootcamp Manager

An alumni of the first batch in Tokyo, Douglas joined a local startup after graduating to gain experience as a fullstack developer. He joined the Japan team in 2018 as our Tokyo driver, giving students the best Le Wagon experience every day.

Yann Klein

Driver

Yann is the driver for our part-time bootcamp. He has been living in Japan for 9 years, speaks fluent Japanese, and was developing VR applications using JavaScript before joining our team.

Sylvain Pierre

Le Wagon Japan co-founder

Sylvain is the co-founder of Le Wagon in Japan. He mainly takes care of the community, and loves to teach programming and product development fundamentals to beginners.

One more thing...

Certificates

- Attendance to **ALL** live sessions
- Ruby Codecademy track **100% completed**

It will be intense

You will nail it !
