

Le Wagon May 11, 2021

# Le Wagon Tokyo

## Ruby Foundations

Programming for Everybody Webinars

**Always work hard  
on something  
uncomfortably exciting**

- Larry Page

A group of four students are gathered around a table, focused on a laptop screen. A young woman in a grey sweater is pointing at the screen with her right hand. To her left, a man in a dark blue shirt is holding a black mug. In the foreground, a person's hands are visible, writing in a notebook with a blue pen. Another student, a man in a blue shirt, is resting his chin on his hand, looking intently at the screen. They are in a bright room with large green plants in the background.

Course's Mindset

# Objective

Our goal is to provide context for what you will learn in Codecademy, and to show you what you can do with the knowledge acquired.

# Our methodology

- Practice > Theory
- Learn together
- Show, not tell

# What we will teach you

- Ruby foundations & syntax 💎
- Core notions of programming 💻💻

# What we will not teach you

- Front-end 📱
- Building web applications 📞

⚠️ *This course is not a bootcamp!* ⚠️

# What makes a successful student

- Punctual for lectures: **We start at 7pm JST!** 
- Complete **Codecademy** module in advance 
- Not afraid to ask **questions ?**
- **Practice** makes perfect (REPL & Codewars) 

# Tools

**Zoom:** to attend live sessions

**Slack:** to ask questions and connect

**Github:** to get the course's material

**Codecademy:** to learn on your own

**REPL:** to practice and go further

- Your and

# Schedule

## Ruby Foundations

**11 May 2021      Kick-off | Introduction to Ruby (1 module)**

**13 May 2021      Ruby Flow: Conditionals | Looping with Ruby (2 modules)**

**18 May 2021      Data Structures: Arrays | Blocks & Sorting (2 modules)**

**20 May 2021      Hashes & Symbols (1 module)**

**25 May 2021      Refactoring & Blocks, Procs and Lambdas (2 modules)**

**27 May 2021      Object Oriented Programming: Part I & II (2 modules)**

# Daily Schedule

Monday | Wednesday | Friday

19:00 - 19:45    Recap of the concepts for the day's modules

19:45 - 20:00    Going further (mini-programs, livecode, challenge)

20:00 - 20:15    Q&A session

**Slack Channel:** #codecademy-questions (it's a team effort!)

# The Team

## Sasha Kaverina

Community & Events Manager

Sasha takes care of our amazing Le Wagon Tokyo community and events! She has been living in Japan for 3 years, speaks Japanese, and is coming straight from Kyoto where she was working for a Japan-based venture capital.

## Douglas Berkley

Tokyo Bootcamp Manager

An alumni of the first batch in Tokyo, Douglas joined a local startup after graduating to gain experience as a fullstack developer. He joined the Japan team in 2018 as our Tokyo driver, giving students the best Le Wagon experience every day.

## Yann Klein

Driver

Yann is the driver for our part-time bootcamp. He has been living in Japan for 9 years, speaks fluent Japanese, and was developing VR applications using JavaScript before joining our team.

## Sylvain Pierre

Le Wagon Japan co-founder

Sylvain is the co-founder of Le Wagon in Japan. He mainly takes care of the community, and loves to teach programming and product development fundamentals to beginners.

**One more thing...**

# Certificates

- Attendance to **ALL** live sessions
- Ruby Codecademy track **100% completed**

**It will be intense**

**You will nail it** !
