Programming for Everybody Webinars

# What is **Le Wagon**?

Le Wagon has been ranked the #1 coding school in the world for 4 years, according to students on [Switchup](#).

We help our students re-invent their career with technology, through immersive bootcamps in Web Development and Data Science.

We teach these in both 9-week (full time) and 24-week (part time) programs.

# Course's Mindset

A photograph of four people in a meeting. On the left, a woman with dark hair is looking at a laptop. Next to her, a man with curly hair is pointing at the screen. In the center, a woman with blonde hair is looking down at a tablet. On the right, a man with dark hair is resting his chin on his hand, looking thoughtful. In the foreground, there is a brown leather bag and a laptop with an Apple logo. The background is filled with large green plants.

# Objective

Our goal is to provide **context** for what you will learn in Codecademy, and to show you what you can do with the knowledge acquired.

## Our methodology

- Practice > Theory
- Learn together
- Show, not tell

More than **1,500 participants** over the past 5 years!

# The Team

## Sasha Kaverina

Community & Events Manager

Sasha takes care of our amazing Le Wagon Tokyo community and events! She has been living in Japan for 3 years, speaks Japanese, and is coming straight from Kyoto where she was working for a Japan-based venture capital.

## Douglas Berkley

Tokyo Bootcamp Manager

An alumni of the first batch in Tokyo, Douglas joined a local startup after graduating to gain experience as a fullstack developer. He joined the Japan team in 2018 as our Tokyo driver, giving students the best Le Wagon experience every day.

## Yann Klein

Driver

Yann is the driver for our part-time bootcamp. He has been living in Japan for 9 years, speaks fluent Japanese, and was developing VR applications using JavaScript before joining our team.

## Sylvain Pierre

Le Wagon Japan co-founder

Sylvain is the co-founder of Le Wagon in Japan. He mainly takes care of the community, and loves to teach programming and product development fundamentals to beginners.
