Le Wagon Tokyo

Ruby Foundations

Programming for Everybody Webinars

What is **Le Wagon**?

Le Wagon has been ranked the #1 coding school in the world for 4 years, according to online reviews.

We help our students re-invent their career with technology, through immersive bootcamps in **Web Development, Data Science** and **Data Analytics**. We teach these in both **9-week** (full time) and **24-week** (part time) programs.

We also offer short (1-week) skill courses focused on **AI** and **Automation**.

Le Wagon

Overview

We are providing students with the skillsets necessary to future-proof their career.

A teaching of excellence

Always work hard
on something
uncomfortably exciting

- Larry Page

Course's Mindset

A photograph of four people (three men and one woman) gathered around a table in a modern, brightly lit office or meeting space. They are looking at a laptop. One man on the right is resting his chin on his hand, looking thoughtful or perhaps bored. A brown leather bag is in the foreground, and a white Apple logo is visible on the back of the laptop. Large green plants are in the background.

Objective

Our goal is to provide **context** for what you will learn in Codecademy, and to show you what you can do with the knowledge acquired.

Our methodology

- Practice > Theory
- Learn together
- Show, not tell

More than **1,500 participants** over the past 5 years!

What we will teach you

- Ruby foundations & syntax 💎
- Core notions of programming 👩👨💻

What we will not teach you

- Front-end 📱
- Building web applications 📠

⚠️ ***This course is not a bootcamp!*** ⚠️

What makes a successful student 🎓

- Punctual for lectures: **We start at 7pm JST!** ⌚
- Complete **Codecademy** module in advance 🧐
- Not afraid to ask **questions ?**
- **Practice** makes perfect

Tools

Zoom: to attend live sessions

Slack: to ask questions and connect

Github: to get the course's material

_Codecademy: to learn on your own

Github Codespaces: to practice

- Your  and 

Schedule

Ruby Foundations

Tue, Aug 18th	Kick-off Introduction to Ruby (1 module)
Thu, Aug 20th	Ruby Flow: Conditionals Looping with Ruby (2 modules)
Tue, Aug 25th	Data Structures: Arrays Blocks & Sorting (2 modules)
Wed, Aug 26th	Info Session - Discover our bootcamps! 👁️ (optional)
Thu, Aug 27th	Hashes & Symbols (1 module)
Tue, Sep 1st	Object Oriented Programming: Part I & II (2 modules)

Daily Schedule

Tuesday / Thursday

19:00 - 20:00 Recap of the concepts for the day's modules

20:00 - 20:15 Going further (mini-programs, livecode, challenge)

20:15 - 20:30 Q&A session

Slack Channel: #batch-ruby-08-26 (it's a team effort!) 

One more thing...

Certificates 🎓🎓

- Attendance to **ALL FIVE** live sessions
- Ruby Codecademy track **100% completed**

THIS CERTIFIES THAT

John Tanaka

HAS SUCCESSFULLY COMPLETED THE

10-hour Ruby foundations webinar series

It will be intense
You will nail it 🚀!
